ACTIVITY	ACTIVITY	QTY	RATE	AMOUNT
LANDSCAPING	4763. There is signs of Ganoderma underground in the front yard. Previous tree was diseased and removed however the soil was not the contaminated soil was left. The mushrooms are now poking up through the sod. This proposal includes removing 400 square feet of sod, removing 12 in depth of contaminated soil and replacing with fresh soil, then reinstalling new sod. -Please note, there's no guarantee that after this work is completed the ganoderma won't show up in other places of the yard. The disease affects the entire root structure of a tree,	1	2,150.00	2,150.00

TOTAL **\$2,150.00**
